NOTE 1: Stations in Mountain View must set transmit DG-ID to 10 and receive DG-ID to 0 to be heard in Kansas City Wide
Stations in the Kansas City area can leave both transmit and receive DG-ID set to 0 or AUTO.

NOTE 2: May not always be connected to Kansas City Wide. Repeater may be temporarily changed to other rooms by users.
The repeater will return to Kansas City Wide room after a timeout period.

NOTE 3: Not connected to Kansas City Wide room full time but can be connected by user.

NOTE 4: Multi-mode repeater. Default C4FM room is Kansas City Wide.
Will not be available to C4FM users if other modes (DMR, NXDN) are active.

NOTE 5: Connected to KC Local Fusion repeater group. No connection to other networks or protocols.

NOTE 6: Non-standard 2 meter frequency offset. Offset is +1MHz.

NOTE 7: Basehor has alternate input frequency to avoid DTV interference.
